KEY=COMMITMENTS - NELSON MCKAYLA

Passionate Commitments

The Lives of Anna Rochester and Grace Hutchins

SUNY Press **Developing their rhetorical skills in early-twentieth-century women's organizations, Anna Rochester and Grace Hutchins, life partners and heirs to significant wealth, aimed for revolution rather than reform. They lived frugally while devoting themselves to several organizations in succession, including the Episcopal Church and the Fellowship of Reconciliation, as they searched for a place where their efforts were welcomed and where they could address the root causes of social inequities. In 1927, they joined the Communist Party USA and helped to build the Labor Research Association. There they engaged in research and wrote books, pamphlets, and articles arguing for gender and racial equality, and economic justice. Julia M. Allen's *Passionate Commitments* is a love story, but more than that, it is a story of two women whose love for each other sustained their political work. Allen examines the personal and public writings of Rochester and Hutchins to reveal underreported challenges to capitalism as well as little-known efforts to strengthen feminism during their time. Through an investigation of their lives and writings, this biography charts the underpinnings of American Cold War fears and the influence of sexology on political movements in mid-twentieth-century America.**

Passionate Commitments

The Lives of Anna Rochester and Grace Hutchins

State University of New York Press **A story of two twentieth-century American women whose love for each other fueled their work to create an egalitarian world. Developing their rhetorical skills in early-twentieth-century women's organizations, Anna Rochester and Grace Hutchins, life partners and heirs to significant wealth, aimed for revolution rather than reform. They lived frugally while devoting themselves to several organizations in succession, including the Episcopal Church and the Fellowship of Reconciliation, as they searched for a place where their efforts were welcomed and where they could address the root causes of social inequities. In 1927, they joined the Communist Party USA and helped to build the Labor Research Association. There they engaged in research and wrote books, pamphlets, and articles arguing for gender and racial equality, and economic justice. Julia M. Allen's *Passionate Commitments* is a love story, but more than that, it is a story of two women whose love for each other sustained their political work. Through an investigation of their lives and writings, this biography charts the underpinnings of American Cold War fears and the influence of sexology on political movements in mid-twentieth-century America. Julia M. Allen is Professor Emerita of English at Sonoma State University.**

A Passionate Commitment

Recapturing Your Sense of Purpose

Moody Publishers **We regularly attend church, know the hymns by heart, and teach our children about Jesus. We are doing the right things. So why do we feel so empty? Although Jesus promised His followers an abundant life, many Christians struggle with a lack of purpose, fulfillment, and zeal. Underneath all of their Christian activity, they feel cold and, at times, confused about the place and prominence of Jesus Christ in their inner lives. The problem, according to Crawford Loritts, is that we've lost our sense of purpose. While we may have a general sense of direction, we have assumed that somehow we can work out the details or that everything will just fall into place. While we outwardly conform to what we say we believe, we privately confess that we know God wants and deserves more from us. *A Passionate Commitment* will help you understand God's purpose for your life by challenging the things the world teaches you to hold dear. Crawford Loritts will help you revive your passionate commitment to the God of the**

universe.

Evolution and the Capacity for Commitment

Russell Sage Foundation **Commitment is at the core of social life. The social fabric is woven from promises and threats that are not always immediately advantageous to the parties involved. Many commitments, such as signing a contract, are fairly straightforward deals, in which both parties agree to give up certain options. Other commitments, such as the promise of life-long love or a threat of murder, are based on more intangible factors such as human emotions. In *Evolution and the Capacity for Commitment*, distinguished researchers from the fields of economics, psychology, ethology, anthropology, philosophy, medicine, and law offer a rich variety of perspectives on the nature of commitment and question whether the capacity for making, assessing, and keeping commitments has been shaped by natural selection. Game theorists have shown that players who use commitment strategies—by learning to convey subjective offers and to gauge commitments others are willing to make—achieve greater success than those who rationally calculate every move for immediate reward. *Evolution and the Capacity for Commitment* includes contributions from some of the pioneering students of commitment. Their elegant analyses highlight the critical role of reputation-building, and show the importance of investigating how people can believe that others would carry out promises or threats that go against their own self-interest. Other contributors provide real-world examples of commitment across cultures and suggest the evolutionary origins of the capacity for commitment. Perhaps nowhere is the importance of commitment and reputation more evident than in the institutions of law, medicine, and religion. Essays by professionals in each field explore why many practitioners remain largely ethical in spite of manifest opportunities for client exploitation. Finally, *Evolution and the Capacity for Commitment* turns to leading animal behavior experts to explore whether non-humans also use commitment strategies, most notably through the transmission of threats or signs of non-aggression. Such examples illustrate how such tendencies in humans may have evolved. Viewed as an adaptive evolutionary strategy, commitment offers enormous potential for explaining complex and irrational emotional behaviors within a biological framework. *Evolution and the Capacity for Commitment* presents compelling evidence for this view, and offers a potential bridge across the current rift between biology and the social sciences. A Volume in the Russell Sage Foundation Series on Trust**

Literary Passion, Ideological Commitment

Toward a Legacy of Afro-Cuban and Afro-Brazilian Women Writers

Associated University Presse **This study examines Afro-Cuban and Afro-Brazilian women writers, as well as analysing the roles of women of African descent in Cuban and Brazilian literature. Initially, literary imagination locked women into circumscribed roles, a result of hierarchies embedded in slavery and colonialism, and sustained by hierarchical theories on race and gender. The discussion illustrates how these negative aspects have influenced the mainstream literary imagination that contrasts with the 'self-portrayals' created by women writers themselves. Even as there continues to be disadvantageous constructions, there is no doubt that a modification has occurred over time in images, representation, and articulation. It is a change directly associated with the instances when women themselves are the writers. The historiographic image of the Afro-Cuban and Afro-Brazilian woman as a written object is ideologically replaced by a vision of her as a writing subject. It is here that the vision of a creative, multifaceted, and diversified literature becomes important.**

A Passionate Commitment

Recapturing Your Sense of Purpose

Moody Pub **We go to church. Sing the hymns. Read our Bibles. So why do we feel so empty? The problem, according to Crawford Loritts, is that we've lost our passion and sense of purpose. This is a book to rekindle our spiritual spark and begin to live a life of inner joy, enthusiasm, and deep spiritual passion.**

Doing Good

Passion and Commitment for Helping Others

Routledge **This text is intended to inspire people to make a difference in their work. Told through the experiences of those who "do good" as a**

vocation, it reflects the realities of helping others through those who are successful and flourishing in their work. Focused on helping beginners to feel good about their commitment to service, it is thus appropriate as a text in both under-graduate and graduate courses in counselling, human services, social work, education, and similar survey courses. It is also of use to both professionals and those involved in volunteer helping efforts.

In Gods We Trust

The Evolutionary Landscape of Religion

Oxford University Press This ambitious, interdisciplinary book seeks to explain the origins of religion using our knowledge of the evolution of cognition. A cognitive anthropologist and psychologist, Scott Atran argues that religion is a by-product of human evolution just as the cognitive intervention, cultural selection, and historical survival of religion is an accommodation of certain existential and moral elements that have evolved in the human condition.

Passion and Commitment: Consecrated Celibacy and the Dynamics of Psychosexual Development

Paulines Publications Africa

The Essential Spinoza

Ethics and Related Writings

Hackett Publishing Designed to facilitate a thoughtful and informed reading of Spinoza's Ethics, this anthology provides the Ethics, related writings, and two valuable appendices: List of Propositions from the Ethics, which helps readers to trace the development of key themes; and Citations in Proofs, a list of all the propositions, corollaries, and scholia in the Ethics, together with all the definitions, axioms, propositions, corollaries, and scholia to which Spinoza refers in the proofs--thus, readers can locate, for a given item, each instance where Spinoza refers to it.

The Couple's Comfort Book

A Creative Guide for Renewing Passion, Pleasure and Commitment

Harper Collins **Romance at Your Fingertips** In the tradition of the phenomenally successful *The Woman's Comfort Book*, Jennifer Louden brings her masterful sustenance skills to this creative guide filled with ways for couples to stay connected in a busy world. With playful rituals and reliable recipes for making the most of your time together, this is the comprehensive compendium of coupledness.

Contingency and Commitment

Mexican Existentialism and the Place of Philosophy

State University of New York Press **Offers the first comprehensive survey of Mexican existentialism to appear in English.** This book examines the emergence of existentialism in Mexico in the 1940s and the quest for a genuine Mexican philosophy that followed it. It focuses on the pivotal moments and key figures of the Hyperion group, including Emilio Uranga, Luis Villoro, Leopoldo Zea, and Jorge Portilla, who explored questions of interpretation, marginality, identity, and the role of philosophy. Carlos Alberto Sánchez was the first to introduce and emphasize the philosophical significance of the Hyperion group to readers of English in *The Suspension of Seriousness*, and in the present volume he examines its legacy and relevancy for the twenty-first century. Sánchez argues that there are lessons to be learned from Hyperion's project not only for Latino/a life in the United States but also for the lives of those on the fringes of contemporary, postmodern or postcolonial, economic, political, and cultural power. Carlos Alberto Sánchez is Professor of Philosophy at San José State University and the author of *The Suspension of Seriousness: On the Phenomenology of Jorge Portilla*, With a Translation of *Fenomenología del reloj*, also published by SUNY Press.

The Genius of Democracy

Fictions of Gender and Citizenship in the United States, 1860-1945

University of Pennsylvania Press In the late nineteenth- and early twentieth-century United States, ideas of genius did more than define artistic and intellectual originality. They also provided a means for conceptualizing women's participation in a democracy that marginalized them. Widely distributed across print media but reaching their fullest development in literary fiction, tropes of female genius figured types of subjectivity and forms of collective experience that were capable of overcoming the existing constraints on political life. The connections between genius, gender, and citizenship were important not only to contests over such practical goals as women's suffrage but also to those over national membership, cultural identity, and means of political transformation more generally. In *The Genius of Democracy* Victoria Olwell uncovers the political uses of genius, challenging our dominant narratives of gendered citizenship. She shows how American fiction catalyzed political models of female genius, especially in the work of Louisa May Alcott, Henry James, Mary Hunter Austin, Jessie Fauset, and Gertrude Stein. From an American Romanticism that saw genius as the ability to mediate individual desire and collective purpose to later scientific paradigms that understood it as a pathological individual deviation that nevertheless produced cultural progress, ideas of genius provided a rich language for contests over women's citizenship. Feminist narratives of female genius projected desires for a modern public life open to new participants and new kinds of collaboration, even as philosophical and scientific ideas of intelligence and creativity could often disclose troubling and more regressive dimensions. Elucidating how ideas of genius facilitated debates about political agency, gendered identity, the nature of consciousness, intellectual property, race, and national culture, Olwell reveals oppositional ways of imagining women's citizenship, ways that were critical of the conceptual limits of American democracy as usual.

Thinking in the Ruins

Wittgenstein and Santayana on Contingency

Vanderbilt University Press While Ludwig Wittgenstein (1889-1951) and George Santayana (1863-1952) may never have met or even have studied one another's work, they experienced similar cultural conditions and their thinking took similar shapes. Yet, until now, their respective bodies of

work have been examined separately and in isolation from one another. Santayana is often regarded as an aesthete and metaphysician, but Wittgenstein's work is usually seen as antithetical to the philosophical approaches favored by Santayana. In this insightful new study, Michael Hodges and John Lachs argue that behind the striking differences in philosophical style and vocabulary there is a surprising agreement in position. The similarities have largely gone unnoticed because of their divergent styles, different metaphilosophies, and separate spheres of influence. Hodges and Lachs show that Santayana's and Wittgenstein's works express their philosophical responses to contingency. Surprisingly, both thinkers turn to the integrity of human practices to establish a viable philosophical understanding of the human condition. Both of these important twentieth-century philosophers formed their mature views at a time when the comfortable certainties of Western civilization were crumbling all around them. What they say is similar at least in part because they wished to resist the spread of ruin by relying on the calm sanity of our linguistic and other practices. According to both, it is not living human knowledge but a mistaken philosophical tradition that demands foundations and thus creates intellectual homelessness and displacement. Both thought that, to get our house in order, we have to rethink our social, religious, philosophical, and moral practices outside the context of the search for certainty. This insight and the projects that flowed from it define their philosophical kinship. Thinking in the Ruins will enhance our understanding of these monumental thinkers' intellectual accomplishments and show how each influenced subsequent American philosophers. The book also serves as a call to philosophers to look beyond traditional classifications to the substance of philosophical thought.

The American Liberal Tradition Reconsidered

The Contested Legacy of Louis Hartz

American Political Thought (Un **Eight prominent scholars consider whether Louis Hartz's interpretation of liberalism in his classic 1955 book should be repudiated or updated, and whether a study of America as a "liberal society" is still a rewarding undertaking.**

Engaging in Social Partnerships Democratic Practices for Campus- Community Partnerships

Routledge **Engaging in Social Partnerships** helps practitioners advance democratic engagement by creating spaces where institutions of higher education, community groups, and other organizations can come together. This important book prepares higher education professionals to become reflective practitioners while working in collaborations that span not only the boundaries of organizations, but also borders created by the social divides of class, race, ethnicity, culture, professional expertise, and power. Through illustrative cases, Keith explores effective models of democratic engagement for university-community partnerships, as well as approaches to overcoming obstacles and assessing process and outcome. Current and future professionals in higher education will find this a valuable resource as they explore the power of engaging in collaborations that cross social divides, while enacting practices that are more equitable and democratic.

Ex-Gay Research

Analyzing the Spitzer Study and Its Relation to Science, Religion, Politics, and Culture

Routledge **Defenders and critics of the controversial Spitzer study analyze its methodologies and findings** In 2001, Robert L. Spitzer, MD, presented his study on sexual conversion therapy with its controversial findings that some homosexuals can change their sexual orientation. The resulting media sensation and political firestorm enraged the study's critics and emboldened its supporters. **Ex-Gay Research: Analyzing the Spitzer Study and Its Relation to Science, Religion, Politics, and Culture** presents leading experts examining Spitzer's research methodology and findings to discern whether the study itself deserves deeper consideration or outright dismissal. Every facet of the study is reviewed to discuss the positive or negative aspects of the results, its significance in political and social terms, and the implications for the future. Dr. Spitzer himself was an instrumental figure in the American Psychiatric Association's decision in 1973 to remove homosexuality as a mental illness listing from the

Diagnostic and Statistical Manual-III. His later study that states that in some individuals, homosexuality may be more fluid than previously thought stirred controversy in the psychiatric community and society at large. His study is presented here to allow the reader to evaluate and consider it for themselves. Leading experts then voice their own pro or con views on the methodology and findings. Ex-Gay Research: Analyzing the Spitzer Study and Its Relation to Science, Religion, Politics, and Culture fearlessly illustrates the sometimes fuzzy boundary between science and politics, courageously spotlighting the culture wars now dividing our society. Ex-Gay Research: Analyzing the Spitzer Study and Its Relation to Science, Religion, Politics, and Culture discusses: the ex-gay movement the nature of scientific inquiry the relationship between science and politics the results of sexual conversion therapies gay and lesbian rights Ex-Gay Research: Analyzing the Spitzer Study and Its Relation to Science, Religion, Politics, and Culture is essential reading for sex researchers, mental health professionals, pastoral counselors, political activists, and any person asking if one can truly "change" his or her homosexuality.

Mr. and Mrs. President

From the Trumans to the Clintons

The presidential couple has become an important factor in national politics since the Roosevelts, and an in-depth examination of the most recent presidential pairs yields in-sights on the workings on a public partnership.

The Passionate Organization

Igniting the Fire of Employee Commitment

Amacom Books **"Everyone's heard about companies that seem to have everything--great products, enormous capital resources, reputation, skilled employees, ""advanced"" planning--and they still fail. Why? Perhaps they lack passion. Emphasizing ""big vision,"" mutual trust, and deeply held core values, Jim Lucas demonstrates how to win and keep the competitive edge by thinking with the heart as well as the head. He shows how a committed, passionate workforce can: * make shifts and leaps that strategic planning alone cannot envision * fight to achieve the organization's mission * bring continuous improvement, creativity, and innovation to their work * enjoy a more fulfilling life, personally and professionally, by committing to something greater than themselves."**

Tolerance Between Forbearance and Acceptance

Rowman & Littlefield Pub Incorporated **Tolerance—though seen to be necessary on a world divided by deep differences—often strikes us as grudgingly given and resentfully received. Conceived more widely, however, tolerance can be seen to occupy the difficult, and contested, terrain between merely putting up with and accepting others.**

Seeking Identity

Individualism Versus Community in an Ethnic Context

East European Monographs; 424 **Outlining the unwritten but deeply ingrained system of moral codes that Italian immigrants brought to America, Belliotti examines that system in relation to moral theorists who argue we owe the most to people close to us and those who contend we must attach no special weight to our own interests when determining proper moral action. He also investigates philosophical, historical, sociological, and political aspects of government authority, examines conflicting images of Italian immigrant women, and analyzes war and pacifism.**

Uncontainable

How Passion, Commitment, and Conscious Capitalism Built a Business Where Everyone Thrives

Hachette UK **Kip Tindell, the founder and CEO of The Container Store, reveals the seven secrets to keeping both customers AND employees happy and all fully engaged. "You're going to sell what? Empty Boxes?" Back in 1978, Kip Tindell (Chairman & CEO of The Container Store) and his partners had the vision that people were eager to find solutions to save both space and time - and they were definitely onto something. A new category of the retailing industry was born - storage and organization.**

Today, with stores nationwide and with more than 5,000 loyal employees, the company couldn't be stronger. Over the years, The Container Store has been lauded for its commitment to its employees and focus on its original concept and inventory mix as the formula for its success. But for Tindell, the goal never has been growth for growth's sake. Rather, it is to adhere to the company's values-based business philosophies, which center on an employee-first culture, superior customer service and strict merchandising. The Container Store has been named on Fortune magazine's "100 Best Companies To Work For" list for 15 consecutive years. Even better, The Container Store has millions of loyal customers. In *Uncontainable*, Tindell reveals his approach for building a business where everyone associated with it thrives through embodying the tenets of Conscious Capitalism. Tindell's seven Foundation Principles are the roadmap that drives everyone at The Container Store to achieve the goals of the company. *Uncontainable* shows how other businesses can adapt this approach toward what Tindell calls the most profitable, sustainable and fun way of doing business. Tindell is that rare CEO who fully embraces the "Golden Rule" of business - where all stakeholders - employees, customers, vendors, shareholder, the community - are successful through a harmonic balance of win-wins.

The Passionate Organization

Igniting the Fire of Employee Commitment

Amacom Books Lucas demonstrates how to win and keep the competitive edge by thinking with the heart as well as the head. He shows how a committed, passionate workforce can enjoy a more fulfilling life, personally and professionally.

Patriotism and Other Mistakes

George Kateb has been one of the most respected and influential political theorists of the last quarter century. His work stands apart from that of many of his contemporaries and resists easy summary. In these essays Kateb often admonishes himself, in Socratic fashion, to keep political argument as far as possible negative: to be willing to assert what we are not, and what we will not do, and to build modestly from there some account of what we are and what we ought to do. Drawing attention to the non-rational character of many motives that drive people to construct and maintain a political order, he urges greater vigilance in political life and cautions against "mistakes" not usually acknowledged as such. Patriotism is one such mistake, too often resulting in terrible brutality and injustices. He asks us to consider how commitments to ideals of religion, nation, race,

ethnicity, manliness, and courage find themselves in the service of immoral ends, and he exhorts us to remember the dignity of the individual. The book is divided into three sections. In the first, Kateb discusses the expansion of state power (including such topics as surveillance) and the justifications for war recently made by American policy makers. The second section offers essays in moral psychology, and the third comprises fresh interpretations of major thinkers in the tradition of political thought, from Socrates to Arendt.

Now, More Than Ever

A Passionate Call for Commitment

Trackless Wastes & Stars to Steer

by

Christian Identity in a Homeless

Age

Herald Press (VA) **Separatist Christians risk being neither of nor in the world. But they cling to a Christianity passionate enough to challenge the world's broken ways. Translationist believers risk being entirely in the world and losing their Christianity. But they make meaningful, exciting connections between faith and world as they go on adventurous journeys of faith. Michael A. King suggests a third way where Christians challenge the bad and love the good of God's world. Such bicultural Christians take the world into the Bible and connect the Bible with the world.**

Passion before Prudence

WestBow Press **The premise of this little volume is that life is meant for meaning, and that meaning is found only through the commitments we make to those self-transcending goals and values which are true to our nature and talents as distinctive human beings.**

The Gift of Sex

A Guide to Sexual Fulfillment

Thomas Nelson Clifford and Joyce Penner, clinical therapist and nurse have written a sensitive and forthright guide to understanding sexuality and how it fits into God's design for marriage. This revised and updated version features a new introduction, new illustrations, a section on addictions and the Internet, and a timely discussion on sexually transmitted diseases and their consequences. With the latest information on sexuality and intimacy, this best-selling book is ideal whether you are newlyweds or have been married for many years. Chapters include: The Physical Dimension The Total Experience Moving Past Sexual Barriers Resolving Difficulties Finding Help

Betty Friedan and the Making of the Feminine Mystique

The American Left, the Cold War, and Modern Feminism

Culture and Politics in the Company An examination of the development of Betty Friedan's feminist outlook. Horowitz (American studies, Smith College) looks at Friedan's life from her childhood in Peoria, Illinois through her wartime years at Smith College and Berkeley, to her decade-long career as a writer for two radical labor journals, the Federated Press and the United Electrical Workers' UE News. He argues that this history, combined with the fact that Friedan continued to work on behalf of many social causes after her marriage, contradicts Friedan's claim that her commitment to women's rights grew solely out of her experience as an alienated suburban housewife. Annotation copyrighted by Book News, Inc., Portland, OR

Postmodern Rationality, Social Criticism, and Religion

Paragon House Publishers Ruf (philosophy, Florida Atlantic U. and emeritus West Virginia U.) explains to undergraduate students some of the ways

philosophers have been trying to make sense of things over the past 150 years. He analyzes, criticizes, selectively appropriates, and reconstructs writings of existentialists, social and cultural critics, pragmatists, and postmodernists in order to find a coherent interpretation of the current human form of life and its future possibilities.

Michigan Law Review

Ethics

A Pluralistic Approach to Moral Theory

Wadsworth Publishing Company This book not only provides an introduction to the main traditions in ethical thought (Aristotle and virtue ethics, Mill and utilitarianism, and Kant and deontology), but also offers a conceptual framework (ethical pluralism) for understanding the relationship among these various theories.

Composing Research

A Contextualist Paradigm for Rhetoric and Composition

Cindy Johaneck offers a new perspective on the ideological conflict between qualitative and quantitative research approaches, and the theories of knowledge that inform them. With a paradigm that is sensitive to the context of one's research questions, she argues, scholars can develop less dichotomous forms that invoke the strengths of both research traditions. Context-oriented approaches can lift the narrative from beneath the numbers in an experimental study, for example, or bring the useful clarity of numbers to an ethnographic study. A pragmatic scholar, Johaneck moves easily across the boundaries that divide the field, and argues for

contextualist theory as a lens through which to view composition research. This approach brings with it a new focus, she writes. "This new focus will call us to attend to the contexts in which rhetorical issues and research issues converge, producing varied forms, many voices, and new knowledge, indeed reconstructing a discipline that will be simultaneously focused on its tasks, its knowledge-makers, and its students." Composing Research is a work full of personal voice and professional commitment and will be a welcome addition to the research methods classroom and to the composition researcher's own bookshelf. 2000 Outstanding Scholarship Award from the International Writing Centers Association.
